From the President

The Vascular and Endovascular Surgery Society is a national society with over 1,000 members and a 40+ year history dedicated to issues most germane to the young vascular surgeon. The mission of the VESS is to improve the science and art of vascular surgery and endovascular therapies and to provide interchange of medical knowledge and information. Active membership is limited to the first 15-years after fellowship training, however, our active senior members stay very much involved. Members strive to promote basic and clinical research that directly improves outcomes for our patients. The structure of the Society and the meetings are conducive to developing long-term relationships - relationships that are built and grown with colleagues, friends, mentors, trainees, and most importantly, our industry partners.

The Annual Meeting is the leading forum for face-to-face interaction with young vascular surgeons who represent the future of our specialty. Senior leaders in vascular surgery have the opportunity to mentor junior partners and trainees. Many VESS members are already key opinion leaders. The atmosphere at the Annual Meeting recognizes the extraordinary contribution industry provides to the ever-changing field of vascular surgery with new devices, technologies and therapies.

We hope you and your company’s colleagues will want to integrate this important educational gathering into your overall strategy for 2019 and beyond. You won’t want to miss this great opportunity!

Hope to see you at VESS!

Sincerely,
Jonathan Eliason, MD
