VESSIETTER

Vascular & Endovascular Surgery Society

Volume 14 • Issue 3 • Fall 2022

President's Corner by Ravi Veeraswamy, MD

We are gearing up for **VESS 2023 in Whistler, Canada**. GET THOSE PASSPORTS READY!!! As the weather turns colder and we dream of snow - it's a great time to check in on the many things VESS has done since the summer. **Dan Han, Max Wohlauer** and other VESS leaders were critical in supporting the first-ever national **Vascular Surgery Interest Group** (VSIG) interest group meet. They hosted an enthusiastic group of medical students and continue to foster them in collaborative, multi-institutional projects. This is a huge step forward for our specialty and introducing it to the brightest students across the country.

We also hosted the **3rd Annual VESS Virtual Residency Fair**. Starting with a panel discussion and continuing on to individual program rooms it was again a tremendous success. 39 programs and 104 students participated and shared information in what has become the unofficial launch of the MATCH season. (See full recap inside).

Our winter program is set and can be found within the newsletter. A robust offering of scientific sessions and many programs throughout the day for skiers and non-skiers alike. We received over 220 submissions and the quality of the abstracts selected was truly impressive. Many thanks to **Dr. Jeanie Ruddy** and the **Winter Program Committee** for their hard work.

We have a great meeting planned with science, snow and a super deluxe President's dinner on Saturday night with great food, live music and...**Karaoke**...that's right- Karaoke. So get your science, snow-gear and singing voice tuned up and see you in Whistler!

Ravi Veeraswamy 2022-2023 VESS President

2023 VESS CALL FOR LEADERSHIP VOLUNTEERS

The Vascular and Endovascular Surgery Society continues to grow and be THE Society for Early Career Vascular Surgeon. The Executive Council is pleased to announce an open Call for Volunteers to serve on one or more of the many VESS Committees. Both nominations of other members and self-nominations are invited.

Active members in good standing are eligible to serve as are Candidate Members. Though not required, including a brief paragraph indicating why you would like to serve may be helpful to the Nominating Committee and Executive Council members who will consider all appointments.

Unless otherwise indicated, most terms begin following the annual winter meeting of each year with most committee business being conducted by conference call. In many instances, committee members rotate up to chair during their final year. Committee chairs and Society representatives are invited to attend the Executive Council meetings twice annually during the Annual Meeting in the winter and the spring meeting held at VAM.

To volunteer visit the VESS website (<u>www.vesurgery.org/about/officers-committees</u>) by **Wednesday, January 12, 2023**.

The following committees have openings for nominations:

SPRING PROGRAM COMMITTEE (2 Year Term)

Committee members work collaboratively with the SVS Program Committee to select abstracts for the VESS spring meeting in conjunction with VAM. Term begins following the 2023 Spring Meeting

ANNUAL (WINTER) PROGRAM COMMITTEE (2 Year Term)

Committee members review and select abstracts for the Annual Meeting and assist in the development of the scientific program.

COMMUNICATIONS: WEBSITE/SOCIAL MEDIA SUB-COMMITTEE (2 Year Term)

Reviews existing website, suggest changes and updates and new ideas.

COMMUNICATIONS: NEWSLETTER SUB-COMMITTEE (2 Year Term)

Develop, write and review content for three issues of the VESS Newsletter annually.

DIVERSITY, EQUITY & INCLUSION COMMITTEE (4 Year Term)

The purpose of this committee is to identify and promote ways to address minority issues in vascular surgery and encourage women and minorities to actively participate in the Society and its committees. It is also responsible for fostering the VESS Mentor Program each year.

FUNDRAISING COMMITTEE (3 Year Term)

Research and implement comprehensive fundraising campaigns to support Society initiatives. Assist in the fundraising for the annual winter meeting. Help to identify industry with an interest in vascular surgery that may want to support the Society in some way.

GRANTS AND AWARDS COMMITTEE (2 Year Term)

Review applications and select winners for awards (Travel, Resident Research and Early Career Investigator). Also review any requests to survey the VESS membership and submit recommendation to the Executive Council.

MEMBERSHIP DEVELOPMENT COMMITTEE (2 Year Term)

Assist with member recruitment strategy when necessary. Review list of applicants and present nominations for membership to the Executive Council for review before final vote during the Annual Business Meeting.

BYLAWS COMMITTEE (3 Year Term)

Review the by-laws from time-to-time as directed by the Council and make recommendations regarding amendments. Assist with the development of official policies & procedures for Society business.

VASCULAR RESIDENCY EDUCATION COMMITTEE (2 Year Term)

Develop programs (i.e.: Technology Forum, Fellows Program) and address issues of vascular trainees.

STUDENT EDUCATION COMMITTEE (2 Year Term)

Develop program and address issues for medical students interested in a vascular surgery career.

VESS 3rd Annual Virtual Residency Fair

On Tuesday, September 20, 2022, the VESS hosted its 3rd Annual Virtual Residency Fair. This event was established two years ago by **Dr. Matthew Smeds** to facilitate communication between medical students, program directors, faculty and residents from around the country during the pandemic. Feedback from medical students was overwhelmingly positive.

The VESS thanks the 104 medical students who attended the event. You are the future of our specialty. We also acknowledge the program coordinators, program directors, and surgeons representing 39 residency programs around the country for your generosity of time and unwavering commitment to student education.

Ravi Veeraswamy, MD (President VESS), kicked off the meeting, welcoming the medical students to the program, and introduced **Ryan Gedney, MD** (PGY3) Medical University of South Carolina, who delivered a high-yield talk, titled: "Top 10 Things to Consider when Choosing a Residency."

After that, **Blake Murphy, MD** (PGY2) University of Washington engaged the audience with a succinct presentation, filled with useful advice: "How to Prepare for a Virtual Interview."

Next, Panelists **Kathryn DiLosa, MD** (PGY4) University of California Davis, **Blake Murphy, MD** (PGY2) University of Washington, **Christopher Audu, MD** (Clinical 4/PGY 5/6) University of Michigan, **Alexandra Gobble, MD** (PGY3) The Ohio State University, and **Charles DeCarlo, MD** (PGY5) Massachusetts General Hospital fielded questions from the audience about the Match, with topics ranging from choosing what to wear for the interview, how to follow up with programs afterward, and how influential performing a sub-l is in determining where you match. The panel discussion was moderated by **Max Wohlauer, MD**, Chair of the Student Education Committee.

VESS 2nd Annual Virtual Happy Hour

On November 9th VESS hosted the second annual Virtual Career Happy Hour session which was a great success. Our panelists included vascular surgeons who spanned the wide range

of practice environments, from private practice to academia to military, and were in varying stages of their career. We covered topics of frequently asked questions, mostly revolving around applying for jobs, negotiating, and pearls of wisdom from everyone who has gone through the process. We recorded the seminar and uploaded it to our You Tube Channel so that those who may not have been able to attend can watch it at a later time. Don't hesitate to check it out!

VESS Spotlight on Award Winner

Each year, the VESS awards a Travel Grant, an Early Career Investigator Award and a Resident Research Grant. Here, we catch up with previous awardees to find out how they used their funds and what impact the award had on their career. We hope this inspires members to apply for VESS grants and continue the tradition of high achievement that the VESS is proud to support. For more information on how to apply, visit http://vesurgery.org/grants-awards.

Andrea Obi, MD
Assistant Professor of Surgery
University of Michigan
Ann Arbor, MI

I used the VESS career development grant to study monocyte epigenetic changes during the process of thrombosis. This was invaluable experience for myself and my lab: we used this skillset to acquire significant preliminary data to identify one enzyme that then became the subject of my K08 award.

Interestingly, this knowledge really became important during the COVID pandemic, when we found out that this molecule acted as a master switch to control the monocyte's role in driving Covid coagulopathy. This resulted in us winning the designation as Lefkofsky Scholar lab and \$100,000 award to complement this research, and was a finalist for the Jay Coffman Research Award at the Society of Vascular Medicine.

My best advice is to find a mentor or a peer who has been successful to identify strategies and read copies of old grants to set the right framework for the type and intensity of work you need to do to get funded.

My second piece of advice is just to start writing. That is the hardest part! The VESS award was instrumental in helping me get the preliminary data for my K award and also provided some credibility to me as a young investigator on my application.

VESS has tons to offer the young surgeon! There are a young, mid and senior level surgeons from all backgrounds with all types of research. It is a welcoming and tight knit community so the chances are high that you will find someone who can help you or would want to collaborate with you!

VESS MEMBERSHIP RECRUITMENT

On behalf of the VESS Membership Committee we are looking to you, our members, to assist with recruiting efforts by encouraging your colleagues to join.

*Active Membership for Early Career Vascular Surgeons

There are many early career vascular surgeons who have not yet realized what an asset VESS could be to their personal success. Please encourage a colleague or friend to apply today! Recruitment Campaign

*Candidate Membership for Residents & Fellows

VESS is looking to develop the next generation of vascular surgeons and VESS leaders. Getting residents & fellows involved early in their careers helps to create a clear path to their futures. All we are asking is for you to spread the word with those in your department that may not already be familiar with the Society or those who are familiar but have not yet joined.

Visit www.vesurgery.org and go to the "Why Join VESS?" link at the top of the page.

Looking for a Mentor? Look No Further!

VESS Mentorship Program
Facilitates Career Development for
Young Surgeons

MENTORSHIP PROGRAM OVERVIEW

Mentorship is one of the most important tools for professional development and has been linked to greater productivity, career advancement, and professional satisfaction. The VESS Mentorship Program aims to promote career and leadership development for early career vascular surgeons. All active members of the VESS within 10 years of training or candidate members in their last year of training are encouraged to apply.

Through a one-year young surgeon/leader match, the program will pair early career vascular surgeons with mentors who are more experienced colleagues, to provide young surgeons with opportunities to further develop leadership skills and obtain guidance for achieving specific career goals. This program also will foster engagement in the Vascular and Endovascular Surgery Society (VESS).

For more information and to submit an application, Visit our website: www.vesurgery.org/resources/find-a-mentor

VESS @ Social Media

Our social media presence continues to expand. We have **3,583 Twitter followers** and **967 Instagram followers**.

The VESS Communications Committee sends posts on topics pertaining to our society's in-person and virtual events, awards and scholarships, and upcoming deadlines.

Additionally, as the Annual Meeting approaches, the committee releases presentation previews highlighting the speakers and their talks that are upcoming. On Youtube, the videos that are uploaded include educational and surgical technique videos as well as presentations from the

VESS Winter Meeting. If you missed the meeting or want to review one of the talks you saw, check it out and be sure to subscribe to get updates on newly uploaded videos. Finally, the Communications Committee is exploring new types of content that would be beneficial to medical students learning about vascular surgery as a specialty.

Please tag us in Tweets/Instagram posts pertaining to our society, meetings, and vascular topics! Send any recommendations for social media topics to the communication committee; we are always looking for ways to engage our membership and remain current.

PRELIMINARY PROGRAM

Thursday, February 23, 2023

7:00 am – 5:00 pm	Registration
7:00 am	Continental Breakfast
7:30 am – 12:00 pm	VASCULAR FELLOW PROGRAM
7:30 am – 12:00 pm	GENERAL SURGERY RESIDENT PROGRAM
7:30 am – 12:00 pm	MEDICAL STUDENT PROGRAM
12:00 pm – 1:00 pm	Lunch Break / Industry Sponsored Fellows Program
1:00 pm - 4:00 pm	TECHNOLOGY FORUM – DIDACTIC & HANDS-ON
4:15 pm – 6:15 pm	SCIENTIFIC SESSION I
4:00 pm – 4:12 pm	Ultrasound Imaging Is Sufficient and Axial Imaging Is Unnecessary for Patients Undergoing Trans-carotid Artery Revascularization (TCAR) Saranya S Sundaram¹, Ryan W King², Adam Tanious¹, Mathew Wooster¹, Elizabeth Genovese¹, Ravikumar Veeraswamy¹¹ Medical University of South Carolina, Charleston, SC; ²University of Kentucky, Lexington, KY
4:12 pm – 4:24 pm	Determining A Threshold Toe Arm Index for Wound Healing Potential in Patients Undergoing Vascular Intervention Brian H Luong, Christina M Brown, Steven Maximus Mimmie Kwong; U.C. Davis, Sacramento, CA
4:24 pm – 4:36 pm	Cryopreserved Arterial Allografts Versus Rifampin-Soaked Dacron for The Treatment of Infected Aortic and Iliac Aneurysms Armin Tabiei, Sebastian Cifuentes, Manju Kalra, Jill J Colglazier, Bernardo C Mendes, Melinda S Schaller, Fahad Shuja, Todd E Rasmussen, Randall DeMartino; Mayo Clinic, Rochester, MN
4:36 pm – 4:48 pm	Novel Electronic Health Records-based Consultation Workflow Improves Time to Operating Room for Vascular Surgery Patients in An Acute Setting John Iguidbashian, Michal Schafer, Kyle Bata, Jeniann Yi; University of Colorado, Aurora, CO
4:48 pm – 4:56 pm	Outcomes Following Mechanochemical Ablation Of The Great and Small Saphenous Veins Based On Diameter Anna Beth West, Joshua Kim, Ravi R Rajani, Christopher Ramos, Jaime Benarroch-Gampel; Emory University School of Medicine, Atlanta, GA
4:56 pm – 5:04 pm	Neutrophil-to-lymphocyte Ratio Is a Superior Prognostic Marker To Frailty in Patients Undergoing Open Lower Extremity Revascularization Lily S.F. Adler¹, Umin A. Jalloh¹, Khushi S. Patel¹, Emann M. Rabie¹, Anoop Alla¹, Samantha M. Shave¹, Saum A. Rahimi², William E. Beckerman²:¹Rutgers Robert Wood Johnson Medical School, Piscataway, NJ; ²Rutgers Robert Wood Johnson Medical School, New Brunswick, NJ
5:04 pm – 5:12 pm	Postoperative and Long-Term Outcomes Of De Novo Versus Post-Repair Ruptured Abdominal Aortic Aneurysms in VQI-Medicare-Linked Database Austin Fan, Sina Zarrintan, Kevin Yei, Mahmoud Malas; UC San Diego, La Jolla, CA
5:12 pm – 5:24 pm	Preoperative Anemia Is Associated with Poorer Postoperative Outcomes in Patients Undergoing Infrainguinal Bypass Surgery Young Kim ¹ , Shiv S Patel ² , Anahita Dua ² , Abhisekh Mohapatra ² ; Duke University, Durham, NC; ² Massachusetts General Hospital, Boston, MA
5:24 pm – 5:36 pm	Risk Factors for Cerebral Hyperperfusion Syndrome Following Carotid Revascularization Ashley C. Hsu, Brian Williams, Li Ding, Fred A. Weaver, Sukgu M. Han, Kenneth R. Ziegler, Gregory A. Magee; University of Southern California, Los Angeles, CA
5:36 pm – 5:48 pm	Association Between Neighborhood Socioeconomic Deprivation and Likelihood Of Lower Extremity Arterial Revascularization Versus Amputation Oluwasegun A Akinyemi, Terhas A Weldeslase, Mallory Williams, Daniel Tran, David Rose, Edward Cornwell, III, Kakra Hughes 1 Howard University College of Medicine, Washington, DC
5:48 pm – 6:00 pm	Lower Extremity Extracorporeal Distal Revascularization (leedr) in A Swine Model of Prolonged Extremity Ischemia Joseph Edwards¹, David P Stonko², Rebecca Treffalls¹, Eric Lang¹, Hossam Abdou¹, Patrick Walker¹, Brandon Propper³, Todd Rassmussen⁴, Jonathan J Morrison¹; ¹R Adams Cowley Shock Trauma Center, Baltimore, MD; ²Johns Hopkins Hospital, Baltimore, MD; ³Uniformed Services University of the Health Sciences, Bethesda, MD; ⁴The Mayo Clinic, Rochester, MN
6:00 pm – 7:30 pm	WELCOME RECEPTION
7:30 pm – 8:30 pm	Industry Sponsored Symposium

4:36 pm – 4:48 pm	Median Arcuate Ligament Syndrome: A Video Case Report CJ Hillenbrand, Benjamin Starnes, Niten Singh; University of Washington, Seattle, WA
4:48 pm – 4:56 pm	Outcomes Of Open Mesenteric Bypass for Chronic Mesenteric Ischemia Among Elderly Patients Chris Jacobs, Salvatore Scali, Brian Fazzone, Amanda Filiberto, Erik Anderson, Jonathan Krens, Martin Back, Zain Shahid, Gilbert Upchurch, Thomas Huber; University of Florida, Gainesville, FL
4:56 pm – 5:04 pm	Characteristics and Outcomes of Patients Undergoing Infrainguinal Bypass in The Endovascular Era Randall Bloch, Erin McIntosh, Frank Pomposelli, Scott Prushik, Katie Shean, Mark Conrad; St. Elizabeth's Medical Center, Boston, MA
5:04 pm – 5:12 pm	Predictors of Arteriovenous Fistula Maturation Among Patients with Severe Obesity Laura C Anderson, Larry W Kraiss, Mark R Sarfati, Julie B Hales, Benjamin S Brooke; University of Utah, Salt Lake City, UT
5:12 pm – 5:24 pm	Tevar Acutely Increases Left Ventricular Work in An Animal Model David P. Stonko, Joseph Edwards, Hossam Abdou, Patrick Walker, Rebecca N. Treffalls, Randall R. DeMartino, Bernardo C. Mendes, Caitlin W. Hicks, Jonathan J. Morrison; Johns Hopkins, Baltimore, MD
5:24 pm – 5:36 pm	Industry Funding Negatively Impacts Publication of Vascular Surgery Trials Mary A Binko, Katherine Reitz, Rabih A Chaer, Edith Tzeng, Mohammad H Eslami, Natalie D Sridharan University of Pittsburgh, Pittsburgh, PA
5:36 pm – 5:48 pm	Insulin Dependence Is Associated with Poor Long-term Outcomes but Equivalent Perioperative Outcomes Following AAA Repair Clay P Wiske ¹ , Caron Rockman ¹ , Virendra Pate ² , Neal Cayne ¹ , Glenn Jacobowitz ¹ , Karan Garg ¹ New York University, New York, NY; ² Columbia University, New York, NY
5:48 pm – 5:56 pm	Use Of Direct Oral Anticoagulants Over Warfarin Improves Survival and Patency in Infra-geniculate Bypasses with Vein Conduit Compared to Prosthetic David P Ebertz ¹ , Saideep Bose ² , Benjamin Colvard ^{1;1} University Hospitals - Case Western Reserve University, Cleveland, OH; ² Saint Louis University, St Louis, MO
5:56 pm – 6:04 pm	Outcomes Of Patients Treated for Complex Abdominal Aortic Aneurysms Using Fenestrated Grafts with A Double-Wide Scallop for Celiac Artery Incorporation Nolan C Cirillo-Penn¹, Emanuel R Tenorio², Randall R DeMartino¹, Gustavo S Oderich², Bernardo C Mendes¹ ¹Mayo Clinic, Rochester, MN; ²University of Texas Health Science Center at Houston, Houston, TX
7:00 pm – 10:00 pm	PRESIDENT'S DINNER

2023 VESS Annual Spring Meeting

(In conjunction with SVS/Vascular Annual Meeting)

June 14-17, 2023

Gaylord National Resort & Convention Center, National Harbor, MD

National Harbor, MD • June 14-17

SVS Society for Vescular Surgery

IMPORTANT ANNOUNCEMENTS!

CALL FOR ABSTRACTS 2023 VAM

The VAM 2023 site is now open for Abstract Submission from November 16 – January 11, 2023. Go to: https://vascular.org/vam-2023/program/vam23-abstract-submissions.

TRAVEL SCHOLARSHIPS

VAM will be offering travel scholarships via a competitive application process that will open on December 5, 2022 and will close January 9, 2023, so make sure you apply if you are an interested medical student or general surgery resident!

(Visit www.vascularweb.org for more information)

VESS VSIG November Meeting

The Student-Run VESS VSIG DISCOVER team, comprised of 14 diverse medical students from across the country, planned and executed their first event on November 10, 2022. The "Why Vascular?" virtual panel event aimed to introduce Vascular Surgery as a specialty to medical students who are not yet decided on their residency choice. The DISCOVER team marketed the event at their local VSIGs, on social media, and at student sections of several national societies including the ACS. The event attracted many medical students from across the United States, Puerto Rico, Canada, and the Caribbean with over 120 students attending the virtual panel. The attendees were largely made up of M1's (53%) and M2's (30%), but also attracted some M3's, M4's, and even masters, MD-PhD students.

The panel, which included attendings (**Drs. Ravi Rajani**, **Gabriela Velazquez**, **Todd Berland**), residents (**Dr. Christopher Audu**), and a MS4 applying into vascular surgery this year (Aron Licht), shared their career path and answered a variety of questions from current students that ranged from why they chose vascular surgery to what their typical days look like in a given week. The panelists shared what work life balance looked like in their lives, things they found challenging in vascular surgery, and discussed the different paths to becoming a vascular surgeon. The event was well received by the attendees who responded with overwhelmingly positive feedback: "Great turnovers and transitions from moderator to panelists! Loved the diversity among panelists!" "This was really helpful and I hope to attend more events in the future to get a better sense of how I can become a great applicant for vascular surgery."

The recording from the virtual event will be available soon on the VESS Youtube page and on the Audible Bleeding podcast.

In addition to events for the DISCOVER team, the VESS VSIG continues to work on several ongoing projects-**SPECIALIZE** (aimed at M3's and M4's), peer mentorship, technology team building resources helpful for medical students, and more! If you are a student or know a student who would like to be a part of the VESS VSIG, please reach out to **vessvsig@gmail.com** today!

Vascular and Endovascular Surgery Society 203 Washington St., PMB 311 Salem, MA 01970

Register for the 2023 Annual Meeting Today!

VESS 47th Annual Winter Meeting

FEBRUARY 23-26, 2023
Fairmont Chateau Whistler

Whistler, British Columbia, Canada

Early Bird Deadline: January 20, 2023
